

## gears: experiment 4

Connect 2 equal-sized gears using a chain. Turn one gear 4, 6, and 9 times and note the number of turns on the other gear.

### turns

- 4 turns
- 6 turns
- 9 turns

# observation

note the turns for each:

|    |  turns<br>gear A |  turns<br>gear B |
|----|---------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------|
| 1. | 4 turns                                                                                           |                                                                                                   |
| 2. | 6 turns                                                                                           |                                                                                                   |
| 3. | 9 turns                                                                                           |                                                                                                   |

which gear has more number of turns:
