

levers: experiment 1

Setup the following levers and fulcrum (at the centre) to balance _____ kg. Which lever size uses the least  effort:

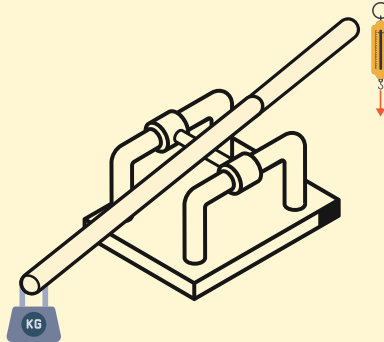

1.

short 1 pipe

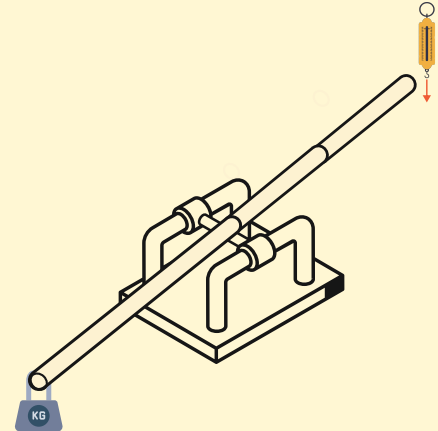

2.

medium 2 pipes

3.

long 3 pipes

observation

measure the effort for each lever used:

	lever	 effort
1.	short	
2.	medium	
3.	long	
which lever size uses the least  effort:		

result

tick the correct answer

shorter /

longer

the **lever
size**

more /

lesser

the **effort**
