

gears: experiment 7

Sam wants to cycle uphill with less effort, even if it means covering less distance with more pedaling. Try different gear sizes - front and rear to make pedaling easier. Turn the front gear 3, 5, and 8 times and note the number of rotations on the rear gear for each.

turns

- 3 turns
- 5 turns
- 8 turns

observation

note the turns for each:

	⌚ turns front gear	⌚ turns rear gear
1.	3 turns	
2.	5 turns	
3.	8 turns	

which gear setup covers the least distance:
